Dear Ms. Lurvey:

On September 19, 2013, the U.S. Environmental Protection Agency received a part 49 minor New Source Review synthetic minor permit application proposing the installation of a portable crushing facility located in Lac Du Flambeau, Wisconsin. We are writing to inform you that EPA has finished reviewing the permit application and to document the completeness of the application.

Pursuant to the permit application requirements listed at 40 C.F.R. § 49.154, we have determined that the information submitted in the application is administratively complete. Please be advised that this application completeness determination does not constitute a thorough evaluation of the merits of the application. If we determine that additional information is necessary to evaluate or to take final action on the application then we may request additional information from you and require your response in a reasonable amount of time.

If you have any questions, please contact Charmagne Ackerman, of my staff, at (312) 886-0448. We look forward to working with you as we prepare the permit.

Sincerely,

George T. Czerniak
Director
Air and Radiation Division
